

## A LIST OF RECEIVED PAPERS

**PASTE·2017**

Serial Number	Abstract Number	First author	Title	Topic	Country
1	2	Nicholas Thompson	Thickened tailings deposition for closure	Tailings Disposal	Australia
2	3	Jincheng Xie	Fractal gradation of filling material and the prediction model of cementing strength	Paste Backfill / Testing	China
3	4	Jerold Johnson	Paste and Thickened Tailings Water Benefits – Case Studies	Water usage and recovery	USA
4	7	Richard Williams	Filtered Tailings Adds Value in Competitive Cost Industries	Case studies	Australia
5	10	Jian Deng	Reliability analysis and design of backfills in a cut-and-fill method	Paste Backfill (Metal or Coal Mines)	Canada
6	12	Jamiel Muhor	A Novel Approach to Polymer Dissolution – Modular CPS	Chemicals / Mixing	Australia
7	14	Fabian Erismann	Translating paste backfill admixture results from the laboratory into the field	Chemicals / Paste Backfill	Switzerland
8	15	Sijing Cai	Study on liquefying-damage of mine tailings dam in earthquake	Liquefaction	China
9	16	Guoyan Zhao	Application of response surface methodology combined with desirability function in optimising the mixture ratio of mine filling materials	Paste Backfill (Metal or Coal Mines)	China
10	17	Lihua Yang	The Effects of Mixing Time on Cement Paste Slurry Transportation and Mechanical Property	Mixing	China
11	18	Guorui Feng	Study on the optimization of filling ratio and parameters of strip filling	Paste Backfill (Metal or Coal Mines)	China
12	23	Shaojie Chen	Microstructure Characteristics of Backfill Paste under Different Loading time	Paste Backfill (Metal or Coal Mines)	China

Serial Number	Abstract Number	First author	Title	Topic	Country
13	27	Nong Zhang	Dynamic Coordination Mechanism of Paste Strength and Roof Load for Gob-side Entry Retaining	Paste Backfill (Metal or Coal Mines)	China
14	32	Guoyan Liu	Study on the Characteristics of Activated Coal Gangue Calcined with Na <sub>2</sub> CO <sub>3</sub>	Paste Backfill (Metal or Coal Mines)	China
15	33	Hongjian Lu	Design of roof-contacted filling ratio and filling holes in the sublevel open stoping with subsequent filling method	Paste Backfill (Metal or Coal Mines)	China
16	35	Wentao Lan	The study of low cost and high strength paste filling material with solid waste	Paste Backfill (Metal or Coal Mines)	China
17	37	Weijian Yu	Cooperative control mechanism and control effect analysis of coal seam backfill mining	Paste Backfill (Metal or Coal Mines)	China
18	39	Juanrong Zheng	Study on the compressive strength development of cemented backfill of coarse tailings with sulphide	Paste Backfill (Metal or Coal Mines)	China
19	42	Ryan L. Veenstra	Using Mount Heaney lead slag to produce a cemented backfill	Paste Backfill / Case studies	Australia
20	44	Haiyong Cheng	Experimental Study on Thixotropic Behavior of Paste	Rheology	China
21	47	Timothy J Kealy	Assessment of on-line rheology as a control tool for thickened tails	Rheology/Slurry Transport	Australia
22	51	Lei Zhang	Flow characteristics of paste slurry under the condition of low atmospheric pressure in high altitude areas	Rheology	China
23	52	Adrian Knight	Variability of Shear Yield Stress – Measurement and Implications for Mineral Processing	Rheology	Australia
24	54	Ou Chen	Numerical Modeling of Filling Slurry Pipeline Transportation Resistance	Slurry Transport	China
25	56	Hui Li	Study on Paste Pipeline Transportation Technology for Chambishi Copper Mine	Slurry Transport	China

Serial Number	Abstract Number	First author	Title	Topic	Country
26	57	Sun Wei	Determination and application of pressure loss in long distance pipeline transportation of paste slurry based on pipe loop experiment	Slurry Transport	China
27	60	Hein Krimpenfort	The largest Piston Diaphragm Pump in the world: from drawing board to operational experience	Slurry Transport	Germany
28	61	Andres Ortiz	Pumping System Design Challenges for High-Density Iron Ore Tailings with Highly Variable Slurry Rheology	Slurry Transport	Australia
29	63	Tim Fitton	Avoiding large tailings dams without going underground – Robinsky's thickened tailings concept	Tailings Disposal	Australia
30	64	Fangqiu Gu	Challenges Associated with the Design of a Dewatering Plant that will undergo a Large Increase in Tailings throughput during the Initial Years of the Project	Thickening/water recovery	Canada
31	65	Raymond Guang	Application of in-line polymer addition for tailings disposal – learning and challenges part II	Case studies	Canada
32	66	Lewis Utting	Uncertainty ranges in estimating $e_0$ and low-density consolidation characteristics for polymer treatment assessments	Thickening/consolidation	Australia
33	68	Sue Longo	Paste Technology – Not Just for Mining Anymore	Tailings Disposal/Thickening	Canada
34	69	Lei Guo	Design and Construction of Paste Filling and Paste Stockpiling United Disposal System in Baiyinchagan Polymetallic Mine	Tailings Disposal	China
35	72	Yueguang Che	Pilot Plant Study of Dry-type Deposition of Baogang West Mine Paste Tailings	Tailings Disposal	China
36	74	Xiaobo Chen	Operation Practice of High Density Tailings Stacking	Tailings Disposal	China
37	77	Chris Lee	An Examination of Improvements in Co-disposal of Waste Rock with Backfill	Co-disposal	Canada

Serial Number	Abstract Number	First author	Title	Topic	Country
38	79	Mingqing Huang	Mix proportions and properties of cemented paste backfill with extra-fine unclassified iron tailings	Paste Backfill (Metal or Coal Mines)	China
39	82	Shenghua Yin	Research on deformation properties of cemented sulfur-content tailings backfill	Testing	China
40	85	Diyuan Li	Strength and transportability of cemented phosphogypsum paste backfilling slurry	Slurry Transport	China
41	88	Shaoyang Yan	The measurement of yield stress of unclassified tailings paste in a mine based on the L-Box method	Testing	China
42	89	Wensheng Lv	The Effect of Ultrasonic Waves to Tailings' Concentration and Pipe Transportation	Slurry Transport	China
43	94	Mika Kosonen	Performance optimization of paste thickening	Thickening	Fineland
44	95	Jerold Johnson	Feedwell is the Heart of a Thickener	Thickening	USA
45	100	Sergio Barrera	High Thickening for Large Production Rates: Main Challenges	Thickening	Chile
46	104	Wenlu Fan	Study on backfill stability in large-scale mining of thick ore-body	Paste Backfill (Metal or Coal Mines)	China
47	105	Behnam Pirouz	Thickener performance variability: Underflow Solids Concentration and Flowrate	Thickening	Australia
48	106	Sadegh Javadi	Open Channel Design for Thickened Tailings	Slurry Transport	Australia
49	108	Peter Peschken	Backfilling of pastes and long distance transport of high density slurries with double piston pumps	Pumping	Germany
50	109	Ji Jiang	Application of paste backfill technology based on gravel and unclassified tailing in Axi Gold Mine	Paste Backfill / Thickening	China

<b>Serial Number</b>	<b>Abstract Number</b>	<b>First author</b>	<b>Title</b>	<b>Topic</b>	<b>Country</b>
51	112	Yunzhang Rao	Experimental Study on Mechanical Characteristics of Full Tailings-Cemented to Sulfur Erosion	Testing	China
52	117	Xiaohui Liu	Study on the friction losses of classified tailings slurry based on loop pipe testing	Slurry Transport	China
53	118	Zhanbin Zhao	Development of Pilot Experiment Equipment for Tailings Deep-Cone Thickening	Testing/Thickening	China
54	120	Paweł Stefanek	Surface Tailings Disposal at the Źelazny Most TSF, Today and into the Future	Tailings Disposal	Poland
55	121	Juanhong Liu	Bleeding Characteristics and Improving Mechanism of Self-flowing Tailings Filling paste with Low Concentration	Chemicals	China
56	123	Ryan Salter	Optimising cemented paste fill at Darlot Gold Mine through the use of BASF product MasterRoc 505C	Case studies	Australia
